COs of the course “Corporate Entrepreneurship”

CSO1 To aid the students to understand the entrepreneurial processes and principles as applied in established organizations.

CSO2 Facilitates the students to identify creative ways to overcome obstacles to entrepreneurship in established companies.

COs of the course “Information Technology for Creating Business Value”

CSO1 To inculcate an understanding among the participants for leveraging Information Technology.

CSO2 Focuses on innovative use of Information Technology.

COs of the course “Managing Software Projects”

CSO1 To develop competency on managing software projects in the context of business organizations.

CSO2 Focuses on Project Integration Management; Project Scope Management; Requirement Change Management.

COs of the course “Business Process Re-engineering”

CSO1 Aimed at developing an appreciation of process view of organizations among the participants.

CSO2 Expected to explore IT enabled process redesign and process re-engineering in their respective job positions.

COs of the course “Executive Effectiveness through Information Technology”

CSO1 Enable students develop individual IT competency for executive efficiency in their roles.

CSO2 Aims at providing the participants an opportunity to develop extensive hands-on practice on various tools.

COs of the course “Business Analytics & Business Intelligence”

CSO1 Understanding of business performance based on data and statistical methods.

CSO2 Executive decision support through data would be the central theme of this course.

COs of the course “System Analysis & Design”

CSO1 To equip students with tools and techniques for undertaking Analysis and Design of computer based commercial data processing systems.

CSO2 Familiarized with the emerging set of tools for undertaking analysis and design of IT projects.
COs of the course “Managing E-Business”

CSO1 Aimed at developing an understanding of emerging e-business paradigms.

CSO2 Focus on analysis of factors responsible for successes and failures of e-business initiatives.

COs of the course “Managing Information Technology Enabled Services”

CSO1 Introduce the students to the newly emerging area of IT Enabled Services and their impact on economies and society.

CSO2 Expected to undertake extensive field work on role of IT in transforming the Services Sector.

COs of the course “Knowledge Management”

CSO1 Aimed at helping students gain an insight into the basic concepts and application of Knowledge Management.

CSO2 It involves deliberations on the basic processes and tools of managing knowledge in organizations.

COs of the course “Management of Non-Profit Organisations”

CSO1 To acquaint the participants with fundamental principles of non-profit organization.

CSO2 To develop analytical skills required for non-profit organisation’s organizational design, governance, human resource and system management.

COs of the course “Global Environment of Service Sector”

CSO1 To sensitize the participants in the changing scenario of service industries throughout the world.

CSO2 Draws attention to international agencies and regulations impacting service sectors in different regions of the globe.

COs of the course “Transportation Management”

CSO1 To acquaint the students with the major issues encountered in planning and executing different forms of transportation.

CSO2 Describes the Significance of Transport as an activity: Airlines, Surface, Railways Ships and Water Transport.

COs of the course “Hospitality Marketing”

CSO1 To combine marketing theory with strong practical emphasis on applications in the hospitality industry.

CSO2 Exploring Links between Operations & Marketing; Basics of Marketing Research in Hospitality Industry.
COs of the course “Hospitality Operations Management”

CSO1 To prepare the participants for decision making in different areas of hospitality operations management.

CSO2 Emphasis is on applied areas like property and asset management, service and quality and overall productivity and performance management in a hospitality unit.

COs of the course “Civil Aviation Management”

CSO1 The focus would be on the quantum of investment required, the need to comply with the safety norms and the concern for environment.

CSO2 Describes Special Characteristics of Civil Aviation; Application of Economy Modules and Regression Analysis in Lair Passenger Demand Forecasting.

COs of the course “Total Service Quality Management”

CSO1 Role of quality in services particularly its assessment, control and recovery.

CSO2 Focus has to be given on customer satisfaction surveys and research using certain tools and models and assessment of total service quality management systems.

COs of the course “Hospital Organization and Control”

CSO1 Focus on the internal organization and functioning of a hospital.

CSO2 Role of the Hospital in providing health services, Research and Education.

COs of the course “Medical Staff Organization”

CSO1 To acquaint the students with various theories and practices in managing the medical staff at various levels of delivery of health care.

CSO2 Emphasise on Medical Staff in Government/Private Organizations, Medical Staff By-laws, Rules and Regulations.

COs of the course “Epidemiology and Public Health”

CSO1 Understanding of epidemiology of community health and the goal is to improve the disaster, emergency, and crisis management plans.
